INDEPENDENT AUDITOR'S REPORT

Board of Directors
Albuquerque Area Indian Health Board, Inc.

We have audited the accompanying financial statement of Albuquerque Area Indian Health Board, Inc. (AAIHB) as of and for the year ending September 30, 2015, and the related notes to the financial statements, which collectively comprise of AAIHB's basic financial statements as listed in the table of contents.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures within the financial statements. The procedures selected depend on the auditor's judgment, which include assessing the risks of material misstatements within the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of AAIHB as of September 30, 2015, and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

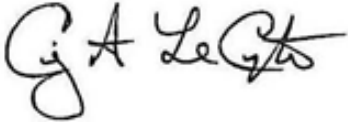

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion on page 4-7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of AAIHB's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

In accordance with Government Auditing Standards, we have also issued our report dated April 18, 2016, on our consideration of AAIHB's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering AAIHB's internal control over financial reporting and compliance.

Background

The Albuquerque Area Indian Health Board, Inc. (AAIHB) is a not-for-profit, 501(c) (3), consortium of six federally recognized tribes in New Mexico and Southern Colorado. AAIHB was incorporated in 1980 to provide direct health care services and to foster self determination in health care delivery systems. Each tribe appoints a representative to the AAIHB board of directors. These representatives assess and advocate for the health care needs of their respective tribal communities.

Introduction

This section of the Albuquerque Area Indian Health Board's annual financial report introduces the basic financial statements and presents an analytical overview of the financial position and changes in financial position as of and for the year ending September 30, 2015. Management has prepared this information; it should be read in conjunction with the Independent Auditor's Report, audited financial statements and notes thereto. The information being presented provides additional information regarding the activities of AAIHB and meets the disclosure requirements of Government Accounting Standards Board Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

Statement of Net Position

The Statement of Net Position is a list of the Assets and Liabilities of AAIHB at year end September 30, 2015 with the difference being the net position. The net position is categorized as "Invested in Capital Assets," "Restricted," or "Unrestricted." Net Position Invested in Capital Assets is the fixed assets of AAIHB reduced by accompanying debt and accumulated depreciation. Restricted net position is those assets subject to externally imposed restrictions governing their use. All other assets are categorized as unrestricted net position.

Total Net Position	<u>\$ 902,875</u>	<u>\$ 898,320</u>	<u>\$ 4,555</u>	<u>0.5%</u>

The negligible change (less than 1% increase) in total net position is evidence of the AAIHB's constant stability. The only area of significant change from the prior year, that of net capital assets (35% increase), reflects the organization's fiscal year 2015 purchases of audiology and information systems equipment.

Expenses classified by Function

A comparative summary of the AAIHB's operating expenses by functional classification for the years ended September 30, 2015 and 2014 is included below:

Expenses by Functional Classification

	2015	2014
Audiology	\$ 780,640	\$ 795,136
HIV/AIDS/STI Prevention	150,785	298,242
Cancer prevention	119,316	94,775

Overhead/Administration	569,912	586,920
Total Operating Expenses	<u>\$ 3,184,643</u>	<u>\$ 2,705,845</u>

In 2015, the CDC awarded AAIHB a sizable grant to increase local tribal capacity to prevent and control chronic disease. This new initiative generated the increase in total program expenses during the fiscal year.

Future Outlook

AAIHB anticipates further investment losses due to expected increases in the federal funds rate and a corresponding decline in bond fund market values. AAIHB plans to offset the decline in market value of its investments with the earnings generated by those investments. AAIHB anticipates continued incremental growth in programmatic services delivery.

1. Summary of Significant Accounting Policies

A. Financial Reporting Entity

The Albuquerque Area Indian Health Board, Inc. (AAIHB) was incorporated as a nonprofit organization on February 4, 1980 and is primarily funded by the U.S Department of Health and Human Services (86%). AAIHB is considered a government because AAIHB's board of directors is appointed by members of tribal governments. Member tribal governments include: The To'Hajiilee Band of Navajos, the Ramah Band of Navajos, the Jicarilla Apache Nation, the Mescalero Apache Tribe, the Ute Mountain Ute Tribe and the Southern Ute Indian Tribe. AAIHB's purpose is to promote the common welfare and well being of the Indian communities and reservations of its members through the development of health services and the health education of the Indian people it represents.

In accordance with the requirements of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, the financial statements must present the Board (the primary government) and its component units. Pursuant to this criterion, no component units were identified for inclusion in the accompanying financial statements.

B. Operations & Budgetary Data

The operations of AAIHB, Inc. encompass providing health related services and disbursing health information to tribal communities in the Albuquerque area. The operating revenues and expenses of the board are primarily financed as stated above through grants funded by the United States Department of Health and Human Services. Cash flows from financing and investing activities are considered non-operating activities and are classified as such. AAIHB's grant budgets are subject to annual review and negotiation by their various funding sources. Annual budgets are not required to be legally adopted.

C. Basis of Accounting

AAIHB follows the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, GASB Statement No. 37, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus*, and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*, which establish the financial reporting standards for all state and local government entities.

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting and reflect transactions on behalf of AAIHB, the reporting entity. AAIHB is considered a special purpose government engaged in business-type activities.

ALBUQUERQUE AREA INDIAN HEALTH BOARD, INC.

**Notes to Financial Statements
Year Ended September 30, 2015**

1. Summary of Significant Accounting Policies (continued)

Under GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Government Entities that Use Proprietary Fund Accounting*, the AAIHB has adopted the option to apply only those Financial Accounting Standards Board (FASB) statements and interpretations issued before November 30, 1989, which do not conflict with or contradict GASB pronouncements. Only GASB pronouncements issued after this date are followed.

Net Position is classified as follows:

Invested in capital assets, net of related debt represents AAIHB's total investment in capital assets, net of accumulated depreciation and outstanding debt obligations related to those capital assets.

Restricted net position represents those operating funds on which external restrictions have been imposed that limit the purposes for which such funds can be used. AAIHB is legally or contractually obligated to spend these funds in accordance with the restrictions imposed by external third parties.

Unrestricted net position consist of those operating funds over which the Board of Directors retains full control to use in achieving any of its authorized purposes.

When an expense is incurred that can be paid using either restricted or unrestricted resources, AAIHB's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

Revenues and expenses are classified as operating or non-operating according to the following criteria:

Operating revenues and expenses include those activities that have the characteristics of an exchange transaction as well as those incurred that relate directly to the pursuit of the mission of AAIHB.

Non-operating revenues and expenses include those activities that have the characteristics of non-exchange transactions.

During the year ended September 30, 2013, AAIHB implemented the provisions of GASB Statement No. 63, *Financial Reporting of Deferred Outflows, Deferred Inflows and Net Position*. During the year ended September 30, 2014, AAIHB implemented the provision of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

1. Summary of Significant Accounting Policies (continued)

D. Federal and State Grants

Contract and grant revenue is recognized when program expenditures are incurred, in accordance with program guidelines. The expenditures are subject to review by the funding agency and may result in disallowance in subsequent periods. Grants and contracts receivable represent funds receivable from grantors for program services expenses in excess of reimbursements. All grants receivable are considered collectible by AAIHB. Unearned revenue reimbursements in excess of expenses are to be expended in a future period.

E. Income Tax Status

AAIHB is exempt from federal income taxation under Section 501 (c) (3) of the Internal Revenue Code. Accordingly, no tax provision has been made.

F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

G. Cash Equivalents

For the purpose of the statement of cash flows AAIHB considers all currency on hand and deposits held by financial institutions that can be readily withdrawn without limitation as cash and cash equivalents.

H. Investments

AAIHB accounts for investments in accordance with GASB No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. The provisions of this standard require that investments in equity securities with readily determinable fair values and all investments in debt securities be measured at fair value in the statement of Net Position. The unrealized gain or loss on investments is reflected in the statement of Revenues, Expenses, and Changes in Net Position. Investments are carried at the quoted market value of the security. Investment return consists of investment income, realized gain (loss) utilizing the first-in, first-out method and unrealized gain (loss). Interest, dividends and capital gains are invested in a money market fund.

1. Summary of Significant Accounting Policies (continued)

I. Compensated Absences

Each employee earns a certain number of vacation leave hours depending on years of service and four (4) hours of sick leave per pay period. Employees may carry forward up to a total of 80 hours of accumulated vacation leave for use in a succeeding calendar year. All unused sick leave can be carried forward to the next calendar year. Employees that are terminated or terminate employment are to be only compensated for annual leave at a maximum of 120 hours. Sick leave is not paid on termination.

2. Cash and cash equivalent

AAIHB has deposits in three financial institutions with a carrying value of \$146,721 as of September 30, 2015. In the carrying value of \$146,721, \$106,907 is deposited in a non-interest bearing checking account and \$250 is held on hand. The remaining balance of \$39,564 is invested in money market accounts in three financial institutions. AAIHB's deposits were fully insured at September 30, 2015 by Federal Deposit Insurance Corporation (FDIC) and Securities Investor Protection Corporation (SPIC).

3. Investments

AAIHB's investments are categorized as to credit risk to give an indication of the level of risk assumed. Category one includes investments that are insured or registered, and held by the AAIHB or its agent in the AAIHB's name. Category Two includes investments that are uninsured and unregistered, and held by the AAIHB's agent in the AAIHB's name. Category Three includes investments that are uninsured and unregistered and held by the agent, but not in the AAIHB's name. On September 30, 2015 the AAIHB's investments consisted of the following:

5. Property and Equipment (continued)

It is the policy of AAIHB to capitalize property acquisitions exceeding \$5,000 in cost. The estimated useful life of the AAIHB's property has been determined to be as follows: the building is 20 years, and the equipment ranges from 3 to 15 years. The straight line method of calculating depreciation is used.

6. Interfund Balances: Transfers and Interfund Activity

AAIHB occasionally purchases equipment using restricted federal funds that are subsequently used in its allowable business related activities. These assets are transferred to the investment in capital assets fund and are depreciated over their useful life. AAIHB reports these transfers in its financial statements in accordance with GASB No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

7. Accrued Liabilities

The AAIHB's accrued liabilities consist of the following amounts that were payable as of September 30, 2015:

Salaries payable	\$ 16,291
Employee benefit payable	30,748
F.I.C.A./Medicare	8,710
Withholdings	11,130
SUTA payable	2,764
Other accrued payable	3,756
Total accrued liabilities	<u>\$ 73,399</u>

8. Unearned Revenue

Unearned revenue represents the deficiency of expenditures over advances on federal, state or other award programs as follows:

U.S. Department of Health and Human Services:

Indian Health Service (IHS)	
Indian Self-Determination	\$ 1,351,956
Indian Self-Determination-Nonrecurring	4,258
Tribal Planning Substance Abuse	38,526

9. Note Payable and Other Long-Term Liabilities

AAIHB had one outstanding note payable as of September 30, 2015:

Loan Type	Interest Rate	Maturity Date	Original Amount	Balance 9/30/2015
Mortgage	6%	2028	\$ 395,385	\$ 301,689

In June 2009, AAIHB refinanced the building in the amount of \$395,385. This note is secured by the building. The note carries a fixed rate of 6.0% and requires monthly payments of principal and interest in the amount of \$2,853. The final payment is due on June 16, 2028. The current portion of the mortgage is \$13,922 as of September 30, 2015.

The following summarizes the changes in notes payable for the period ended September 30, 2015:

	Balance 9/30/2014	Additions	Reductions	Balance 9/30/2015
Mortgage payable				
Current liability	\$ 15,293	\$ 15,290	\$ 16,661	\$ 13,922
Noncurrent liability	303,057	-	15,290	287,767
Total mortgage payable	318,350	15,290	31,951	301,689
Other long-term liabilities				
Compensated absence	46,195	2,843	-	49,038
Total mortgage payable and long-term liabilities	\$ 364,545	\$ 18,133	\$ 31,951	\$ 350,727

10. Contingencies – Grantor Agencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures that may be disallowed by the grantor agencies cannot be determined at this time although AAIHB expects such amounts, if any, to be immaterial.

11. Current Vulnerability Due to Concentrations

AAIHB receives approximately 86% of its support for various program grants and contracts awarded by the U.S. Department of Health/Human Services. AAIHB does not expect to lose this support from the U.S. Department of Health/Human Services in the near term. However, if funding were withdrawn or diminished, AAIHB's continued operation would be impacted adversely.

12. Retirement Plan

AAIHB has adopted a Simplified Employee Pension plan (SEP) for the benefit of its employees. The plan is administered in accordance with the internal revenue code and treasury regulations. AAIHB makes an annual contribution to a traditional individual retirement agreement (SEP-IRA) set up by each eligible employee. Employees vest 100% in the contribution at the time the contribution is made. The SEP-IRA is wholly owned and controlled by the employee.

13. Risk Management and Litigation

AAIHB is exposed to various risks of losses related to: torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the past several years, AAIHB has obtained liability and other coverage from commercial insurance companies. AAIHB has effectively managed risk through various employee education and prevention programs. Risk management expenses for AAIHB are accounted for in operations. Any claims are processed through insurance agents and/or adjusters. There are no pending or threatened legal proceedings involving material matters to which AAIHB is a party.

14. Subsequent Events

AAIHB has evaluated subsequent events through April 18, 2016, which is the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Albuquerque Area Indian Health Board, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Albuquerque Area Indian Health Board, Inc. (AAIHB) as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise AAIHB's basic financial statements, and have issued our report thereon dated April 18, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered AAIHB's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of AAIHB's internal control. Accordingly, we do not express an opinion on the effectiveness of AAIHB's internal control.

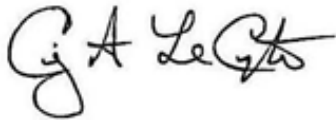

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether AAIHB's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that is required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB
CIRCULAR A-133**

To the Board of Directors
Albuquerque Area Indian Health Board, Inc.

Report on Compliance for Each Major Federal Program

We have audited Albuquerque Area Indian Health Board, Inc.(AAIHB)'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of AAIHB's major federal programs for the year ended September 30, 2015. AAIHB's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of AAIHB's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit-Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about AAIHB's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of AAIHB's compliance.

Opinion on Each Major Federal Program

In our opinion, AAIHB complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2015.

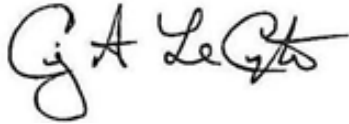

Report on Internal Control Over Compliance

Management of AAIHB is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered AAIHB's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of AAIHB's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
